

In a collaborative effort to expand Medication Therapy Management (MTM) services, advance pharmacy practice, and optimize medication use to improve public health in Maryland, the Maryland Chapter of the American Society of Consultant Pharmacists (MD-ASCP), the Maryland Pharmacists Association (MPHA) and University of Maryland School of Pharmacy (UM SOP) present:

A NATIONAL CERTIFICATE TRAINING PROGRAM FOR PHARMACISTS

Developed by the American Pharmacists Association (APhA)
and the American Society of Consultant Pharmacists (ASCP)

SATURDAY, MARCH 6, 2010 • 7:30 AM TO 5:30 PM

Pharmacy Learning Center – Room 108

110 N. Pine Street, Baltimore, MD 21201

For more info on MTM program: 410-706-3462

Delivering Medication Therapy Management Services in the Community

is an innovative and interactive training program that explores the pharmacist's role in providing MTM services to patients. Pharmacists have a tremendous opportunity to receive reimbursement for monitoring and improving medication use in patients with complex medication regimens. This practice-based activity teaches pharmacists the essential skills necessary to become a successful MTM practitioner. The certificate training program will enhance pharmacists' clinical expertise in evaluating complicated medication regimens, identifying medication-related problems, and making recommendations to patients, caregivers, and health care professionals. *Delivering Medication Therapy Management Services in the Community* is conducted in three parts: self-study activity and pre-seminar exercise; live interactive seminar; post-seminar exercise.

Live Seminar Agenda

- The Patient Interview
- Pre-Seminar Case Review: Communication Barriers
- Case Study William
- Documentation
- The Medication Therapy Review
- Case Study Carlos
- Setting Therapeutic Goals
- Pre-Seminar Case Review
- Medication-Related Action Plan
- Standardized Case Review Toni: Identifying Medication-Related Problems
- Case Study Theresa
- Recommendation to Other Health Care Professionals
- Cultural Sensitivity
- The Senior Patient
- Case Study Donna: The Senior Patient
- Staying Current
- Standardized Case Review Toni: Patient Case Assessment
- Implementation
- SWOT Analysis
- Setting Business Goals and Recruiting Patients
- Billing Concepts, CPT Coding, and Measuring Outcomes
- Take Home Points and Post-Seminar Assignment
- Final Case Activity: Kathy
- Patient Case Assessment Discussion
- Evaluation and Adjournment

The goals of the certificate training program are to:

- Advance public health and patient care through improved medication use.
- Provide training to enhance pharmacists' ability to effectively provide MTM services.
- Motivate increased numbers of pharmacists to establish MTM services.
- Communicate benchmark practices for providing MTM services.

Activity Type: Practice-based

Target Audience: Pharmacists of all practice settings
